

House Judiciary Committee
Hearing on HB 328
February 10, 2015

TESTIMONY FOR HB 328

I am definitely opposed to assisted suicide, as it is not the decision of a doctor that I should have my life terminated. I believe in respecting life from the moment of conception until natural death. Doctors used to take the Hippocratic Oath to preserve life, not destroy life. There are many medications today to relieve the pain of those suffering.

Please vote FOR HB 328.
